EDUCATION

Ballari Institute of Technology and Management

2025 – 2029

B.E. in Computer Science and Engineering (Data Science)

CGPA: 7.75

TECHNICAL SKILLS

Programming Languages: MySQL, C, C++, Python

Web Technologies: HTML

Office & Productivity Tools: MS Office, MS Excel, MS PowerPoint

CERTIFICATIONS

- Python for Data Science
- Certification in C and C++
- Certification in MySQL
- Excelled in MS Office, MS Excel, and MS PowerPoint

PROJECTS

Automatic Occupancy Tracker

- Designed an automated system concept to track and monitor real-time room and space occupancy levels.
- Focused on optimizing space utilization, entry/exit logging, and preventing overcrowding using smart detection logic.
- Explored sensor integration, data collection accuracy, privacy protection, and system design for smart facility management.

Music Playlist Management System

- Developed a Python application for creating, organizing, and managing custom music playlists.
- Implemented features for adding new tracks, deleting songs, viewing playlist details, and searching songs by genre or artist.
- Utilized Python data structures (lists and dictionaries), custom functions, conditional logic, and control loops to handle track management.

Hospital Management System

- Built a C-based menu-driven software application to manage patient records and hospital administrative workflows.
- Implemented C structures, arrays, and functions to store patient information, assign medical details, and manage appointments.
- Included features for registering new patients, searching patient history, updating record status, and viewing daily hospital activity.

Calendar Application in C

- Developed a console-based C application to display monthly and annual calendar layouts with accurate day-of-week calculations.
- Incorporated Zeller's congruence algorithm and leap-year logic for exact date computation across any given year.
- Implemented interactive menu navigation allowing users to view specific months, navigate years, and add basic personal reminders/events.
